

Standard Secondary Physics Curriculum

Subject Code: PHYS-10 | Official Academic Curriculum

Verified learning outcomes and required chapter competencies for students.

Chapter 1: Light: Reflection and Refraction

- Spherical mirrors concave convex
- Mirror formula and magnification
- Refraction through glass slab
- Lens formula and power

Chapter 2: Human Eye and the Colourful World

- Structure and accommodation of eye
- Myopia hypermetropia correction
- Refraction through prism
- Atmospheric refraction and dispersion

Chapter 3: Electricity & Circuits

- Electric current and potential difference
- Ohm law and resistance factors
- Series and parallel resistors
- Joule law of heating and electric power

Chapter 4: Magnetic Effects of Electric Current

- Magnetic field lines and right hand thumb rule
- Solenoid magnetic field
- Fleming left hand rule and motor
- Electromagnetic induction and generator

Chapter 5: Sources of Energy

- Conventional energy sources
- Solar wind and hydro power
- Nuclear energy and environmental consequences
